EAST CHICAGO LEAD SEQUENTIAL RESULTS SCRIPT ck revised draft 11 29 16.docx

Hi Rita:

I made a few edits which I think may make it a bit easier to understand. However, I will defer to the team's technical experts on the final version. I didn't mark up the post-excavation script, but same comments would apply.

Also, is the tense of the script still accurate given how far the sampling work has proceeded (which I'm not sure of)?

Please share with the appropriate team members for review and comment and finalize the script for use.

Thanks.

Subject: RE: Latest Draft of East Chicago script

Chris, If you are ok with this script, should we share with IDEM and/or OPA before we finalize?

Subject: RE: Latest Draft of East Chicago script

As a follow-up to our meeting today, you asked me to confirm the status of the East Chicago script for calling residents with their results. Attached is a revised draft of the East Chicago Script that I double-checked against Miguel's comments and addressed some of the comments you noted. Please let me know what the next steps are and if we can send to OPA and the IDEM drinking water program to review the draft. What we actually tell the residents will depend on when we can contact them and what we know about their results at that time, so this may need additional revisions once we are ready to start making calls.
